TECHNICAL INFORMATION
 STANDARD CONNECTIONS 1/2"
F = Flow R = Return P = Plug V = Vent
PIPE CENTRES
 = radiator width + valves

The Modus Made to Measure range is available in:

Five column depths, four available fixings, 1/2" or 3/4" tappings with various flow configurations and any RAL colour or finish shown on page 149-150 of this brochure. Standard comes with 1/2" bottom opposite end connections and finished in RAL 9016 (White). All preferences must be specified at time of order – diverter, plug, vent and wall brackets are included in the price. Each Modus section regardless of column size is 46mm wide.

Specifying your Modus Made to Measure radiator:

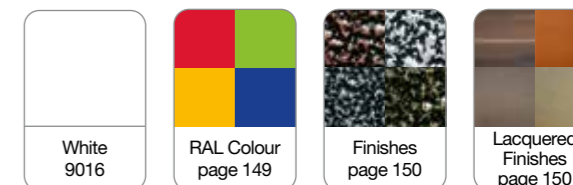

- 1 Choose column depth. 2 Choose height (H). 3 Calculate number of sections – to do this, take the Btu output of chosen section and height from spec table, then divide your required output by this number.
- 4 Choose fixings. 5 Specify if different from standard 1/2" bottom opposite end connections in RAL 9016 (white).

For example: you require a Modus with an output of 6000 Btu to heat your room

1 You have chosen your column depth of 4 columns. 2 Chosen your height of 500mm. 3 Calculated your required number of sections (4.500 = 247 Btu, 6000 / 247 = 25 sections). 4 Decided on wall brackets. 5 With 1/2" bottom opposite end connections as standard in RAL 9016 (white). So, to meet your requirements you would need to order: Modus 4.500 x 25 sections in RAL 9016 (white) with wall brackets and 1/2" bottom opposite end connections. Output will be 6175 Btu (25 sections x 247 Btu) Length will be 1174mm (25 sections x 46mm per section + 24mm for reducing bushes).
